## Table Clock HD Spy Cam Covert

On the outside this looks like any other desk clock... Which is good to be honest as it does function as one... However, it is also a spy camera.

### Description

This analogue desk clock with spy camera and motion sensor is a perfect combination of a clock and a practical surveillance gadget. As a desk clock, it has the feature of keeping accurate time... As a surveillance device, it can be set up in your home, office or shop to monitor what is going on. It is a covert way to keep an eye on the place for a long time.

It can record in both a none stop video and motion detection mode (3 to 4 metre motion detect range). Depending on the size of the memory card you can record up to 10hours and 40minutes of video (more than one charge would be needed).

Not only will this work as a spy cam and clock, it will also work as a webcam and MicroSD card reader!

### Main Features

1280x960 photographs

2 Hours recording from a single charge

640x480 @ 30fps video recording

Automatic video recording available based on motion detection

MicroSD Card Reader (up to 32GB - not included)

640x480 @ 30fps WEBCAM capable!

Supports up to 32GB Micro SD

Video/Photo and SD Reader compatible with Win XP, Vista, Win7 & Win 8 (32bit and 64bit)

Mini USB Cable

SRP £47.95

## Spy Pen HD Deluxe + 8GB SD Card

Write and spy in style with this virtually undetectable deluxe spy pen DVR. Featuring a 1280x920 image sensor for crystal clear video, 25 FPS for smooth motion capture, and pinhole lens for spying on people without raising suspicion, this spy gadget has everything you need to capture high quality undercover videos, and without anybody knowing the better!

But that's not all this spy pen is capable of... The real fun starts when you switch the motion detection to "ON". Then place it on your office desk or nightstand when you leave the room and wait for it to record video at the first sight of movement. You may be surprised at what you might capture!. With the easy one button operation you will always be ready to capture high quality hidden videos within a moments notice, any time any place.

## Paraben PBN V1000 Covert Voice Recorder 8GB

Parabens PBN-V1000 USB Voice Recorder is more than just a voice recorder.

By combining voice activation recording, UBB storage, and a top of the line secure password keeper, the PBN-V1000 gives you 3 quality tools in a covert form in what appears to be just a USB Flash drive

You can listen to your recordings by plugging the PBN-V1000 into your computer and playing the audio files, the Password Keeper software is a great way of preventing online fraud as it stores all your passwords on the drive securely and allows you to copy and paste them into websites anonymously preventing you from having to type in your passwords each time you need to log into your accounts

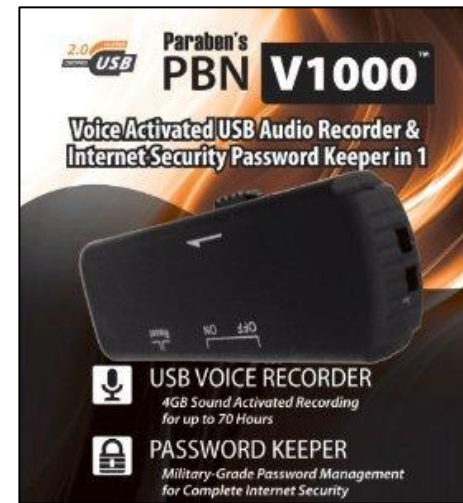

140 Hours of Recording Time - With 8GB of storage, you can store up to 70 hours of voice recordings

15 Hour Battery Life - You can record up to 15 hours of audio before recharging the unit

Voice Activated - Starts recording when noise levels reach normal conversation levels and stops automatically

PC & Mac\* Compatible - Play back your audio recordings from your PC or Mac

Military Grade Password Keeper - Includes password manager software to securely store your passwords in a portable device
